

### Linux OS, IPTV, 4K decoding, HDR10+, Dual Band Wi-Fi support

The AX ETER Box is a modern, Linux-based 4K multimedia player with built-in Dual Band Wi-Fi support (2.4 and 5 GHz). It is ideal for users who want to stream high-quality 4K content via IPTV, YouTube, or M3U playlists. Equipped with 2 GB of RAM and 8 GB of flash memory, the device is fully compatible with popular IPTV providers and OTT platforms such as Stalker.

The unit offers a wide range of connectivity options, ensuring excellent compatibility: two USB 2.0 ports, an HDMI port, a mini-AV jack, and an Ethernet LAN port. With the Bluetooth remote control featuring a learning function, the device can be placed behind the TV without the need for additional cables. Its compact design makes it comfortable to hold and convenient to operate. The remote allows programming of essential functions such as power on/off, volume control, and TV source selection.
